Dear Sir,

PILOT RUN OF DEPOT BOOKING SYSTEM (DBS) AND REGISTRATION OF DEPOTS BY PORT KLANG AUTHORITY (PKA)

We refer to the above matter and the meeting which was held on 3rd June 2010.

2. Please be informed that PKA had various meetings with AMH together with Malaysia Container Depot Association (MCDA) and drawn up an action plan for them to meet the requirements stipulated by PKA namely:

- a. Depots to operate on 24 hours basis in order to facilitate the hauliers to pick up and return MT containers subject to bookings.
- b. To install an online community based Kannaltec Depot Booking System (DBS) in order to plan the receiving and delivering of empty containers at the depot.
- c. Depots to receive / release empty containers upon receiving booking from the hauliers.
- d. Depots to gauge the time (in/out) of empty containers arriving and leaving the depot by using 'Gate Control System' which is incorporated in DBS.
- e. Haulage companies to book the slot via DBS to pick up and drop-off empty containers at the depots.

3. All the depots are required to comply with the requirements that stipulated by Port Klang Authority and also to be registered by Port Klang Authority (PKA) subject to the requirements of the International Ship and Port Facility Security (ISPS) Code and other terms and conditions. The Code requires that a minimum safety and security standards is complied with by all external parties involved in port operations.

4. Additionally, the registration will also enable access to terminal system in updating export container number and facilitating the issuance of e-DO by Shipping Lines / Agents via input of depot code.

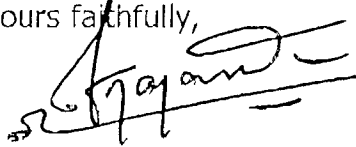

5. The registration will commence effective from **15th June 2010** and the forms will be made available on PKA's website (www.pka.gov.my).

6. Please do not hesitate to contact One Stop Centre, PKA at 03-31688211 ext.2001/ 2031 / 2029 / 2027 for further assistance.

Thanks and best regards.
